Anthropic Roadshow Presentation

November
2026

PRINTING, COPYING, AND DISTRIBUTION OF ROADSHOW MATERIALS IS STRICTLY PROHIBITED
IP ADDRESS: 104.29.197.140
EMAIL: user@netroadshow.com

Legal disclaimer

Anthropic, PBC (the "Company") has filed a registration statement on Form S-1 (including a preliminary prospectus) with the Securities and Exchange Commission (the "SEC") for the offering to which this presentation relates, but it has not yet become effective. The Company's Class A common stock may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. Before you invest, you should read the preliminary prospectus in that registration statement, including the "Risk Factors" set forth therein, and any other documents the Company has filed with the SEC for more complete information about the Company and this offering. You may obtain these documents for free by visiting EDGAR on the SEC website at www.sec.gov. Alternatively, the Company, any underwriter or any dealer participating in the offering will arrange to send you the preliminary prospectus if you request it by contacting: Goldman Sachs & Co. LLC, Attention: Prospectus Department, 200 West Street, New York, NY 10282, by telephone at 866-471-2526 or by email at prospectus-ny@ny.email.gs.com; or Morgan Stanley & Co. LLC, Attention: Prospectus Department, 180 Varick Street, Second Floor, New York, NY 10014, by telephone at 866-718-1649 or by email at prospectus@morganstanley.com. This presentation shall not constitute an offer to sell or the solicitation of an offer to buy these securities, nor shall there be any sale of these securities in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or jurisdiction.

Market Data

Certain information contained in this presentation relates to or is based on studies, publications, surveys, and other data obtained from third-party sources and the Company's own internal estimates and research. Although the Company is responsible for all of the disclosure contained in this presentation and believes these third-party sources to be reliable as of the date of this presentation, it has not independently verified, and makes no representation as to the adequacy, fairness, accuracy, or completeness of, any information. All trademarks, service marks, and trade names appearing in this presentation are the property of their respective holders.

Forward-Looking Statements

This presentation contains forward-looking statements, which statements involve substantial risks and uncertainties about us and our industry. These statements may relate to, but are not limited to, our future financial condition or results of operations, business strategy and plans for growth, our future capital expenditures, technological capabilities, strategic relationships, and objectives of management for future operations. In some cases, you can identify forward-looking statements because they contain words such as "may," "will," "should," "expect," "plan," "anticipate," "could," "intend," "target," "project," "contemplate," "believe," "estimate," "predict," "potential" or "continue" or the negative of these words or other similar terms or expressions that concern our expectations, strategy, plans or intentions. You should not rely upon forward-looking statements as predictions of future events. We have based these forward-looking statements largely on our current expectations and projections about future events and trends that we believe may affect our business, financial condition, results of operations, business strategy, prospects and financial needs. The outcomes of the events described in these forward-looking statements are subject to risks, uncertainties, and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements.

Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible for us to predict all risks and uncertainties that could have an impact on the forward-looking statements contained in this presentation. We cannot assure you that the results, events, and circumstances reflected in the forward-looking statements will be achieved or occur, and actual results, events, or circumstances could differ materially from those described in, or implied by, the forward-looking statements. Neither we nor any other person assumes responsibility for the accuracy and completeness of any of these forward-looking statements. Moreover, the forward-looking statements made in this presentation relate only to events as of the date on which the statements are made. We undertake no obligation to update any forward-looking statements made in this presentation to reflect events or circumstances after the date of this presentation or to reflect new information or the occurrence of unanticipated events, except as required by law. We may not actually achieve the plans, intentions or expectations disclosed in our forward-looking statements and you should not place undue reliance on our forward-looking statements. Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures, or investments we may make. In addition, statements that "we believe" and similar statements reflect our beliefs and opinions on the relevant subject.

Non-GAAP Financial Measures

This presentation uses financial measures that are not presented in accordance with accounting principles generally accepted in the United States ("GAAP"), including Adjusted Operating Income (Loss) and Adjusted Operating Margin, to supplement financial information presented in accordance with GAAP. We use these non-GAAP financial measures to evaluate our operating performance, formulate business plans, prepare budgets and forecasts, and make strategic decisions, including those relating to operating expenses and the allocation of internal resources. By excluding certain items that management believes are not directly reflective of the ongoing operating performance of our business, we believe these non-GAAP financial measures provide investors, analysts, and others with meaningful insight and enhance their overall understanding of our business and financial performance by providing a more consistent and comparable overview of our financial performance across periods. There are limitations to the use of the non-GAAP financial measures presented in this presentation. For example, the non-GAAP financial measures may not be comparable to similarly titled measures of other companies. Other companies may calculate non-GAAP financial measures differently than we do, limiting the usefulness of those measures for comparative purposes. Further, these measures have certain limitations in that they do not include the impact of certain expenses that are reflected on our consolidated statements of operations. Thus, our non-GAAP financial measures should be considered in addition to, not as substitutes for, or in isolation from, measures prepared in accordance with GAAP. See the appendix to this presentation for definitions of, and reconciliations of, such non-GAAP financial measures to their most directly comparable GAAP financial measures.

The information in this presentation is provided in summary form only and does not purport to be complete. This presentation does not contain all the information that is or may be material to you in considering a potential investment in the Company and should not be considered as a recommendation in respect of the holding, purchasing or selling of any securities of the Company. This presentation should not be construed as, nor be relied on in connection with, any offer or invitation to purchase or subscribe for, underwrite or otherwise acquire, hold or dispose of any securities of the Company, and shall not be regarded as a recommendation in relation to any such transaction whatsoever.

Offering summary

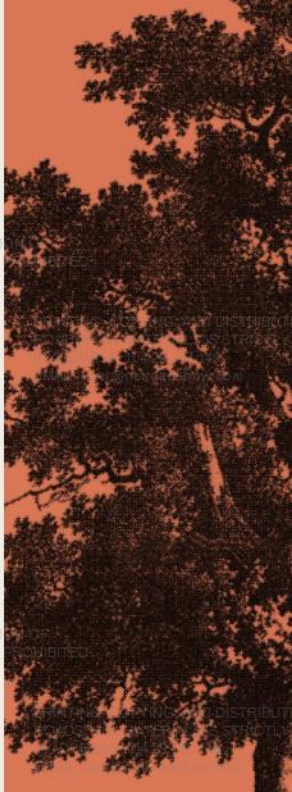

Issuer	Anthropic, PBC
Offering Size	825,000,000 shares (97.1% Primary; 2.9% Secondary)
Concurrent Private Placement	Agreements with Google LLC, NVIDIA Corporation, Advanced Micro Devices, Inc., Broadcom Inc., Micron Technology, Inc., Microsoft Corporation, and TSMC Partners, Ltd. to purchase an aggregate of $26.0 billion of Class N common stock
Over-Allotment	15% (100% Primary)
Offering Price	$70.00 - $78.00 per share
Exchange / Ticker	Nasdaq: ANT
Expected Pricing Date	November 18, 2026
Use of Proceeds	General corporate purposes, including working capital, operating expenses, capital expenditures, including investments in compute and infrastructure, and tax withholding and remittance obligations related to the settlement of certain of our outstanding RSUs
Lock-Up Period	Staggered lock-up expirations beginning on the first trading day (employees, non-founder directors and officers) or day 27 (certain investors), with full expiration at up to 180 days (employees, non-founder directors and officers, and certain investors) or up to 365 days (founders and certain investors)
Joint Lead Bookrunners	Goldman Sachs & Co. LLC, Morgan Stanley
Other Syndicate Members	J.P. Morgan, Citigroup, Barclays, Wells Fargo Securities, BofA Securities, Deutsche Bank Securities, RBC Capital Markets, UBS Investment Bank, BMO Capital Markets, BNP Paribas, Credit Agricole CIB, Jefferies, Mizuho, MUFG, TD Securities, BTIG, Cantor, Capital One Securities, Macquarie Capital, Societe Generale

Anthropic's mission

The responsible development and maintenance of advanced AI for the long-term benefit of humanity

Core advantages | Mission and focus

Our business is driven by our mission

Singular focus

We concentrate our compute, research, and talent on projects that further our mission

Safety and research

Capabilities and safety research are deeply integrated to create frontier AI models and products enterprises trust

Talent density

Our mission attracts world-class talent who want their work to shape a better future

PRINTING, COPYING, AND DISTRIBUTION OF ROADSHOW MATERIALS IS STRICTLY PROHIBITED
IP ADDRESS: 104.29.197.140
EMAIL: user@netroadshow.com

~1%

TTM regrettable employee attrition[1]

[1] Regretted departure of any employee divided by total employees on a TTM basis as of September 30, 2026.

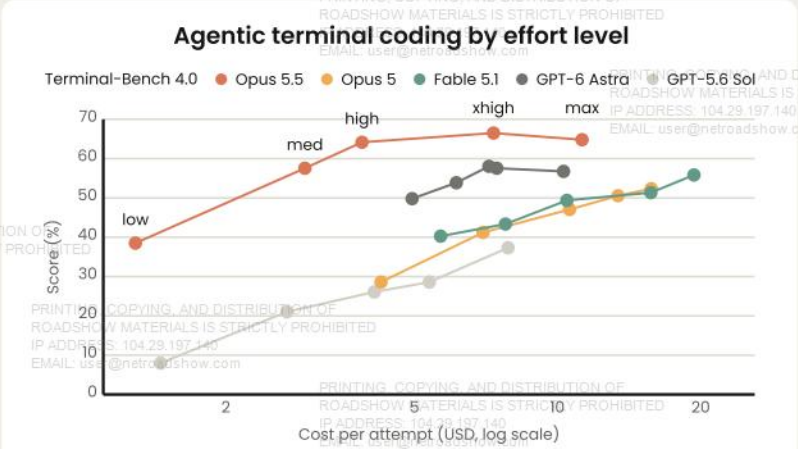

We deliver useful intelligence through deeply integrated safety, research, and frontier capabilities

Excellence in research

Trains leading models and serves them with efficiency

Excellence in safety

Makes them trusted and useful in the world

Note: Terminal-Bench 4.0 measures how well a model can complete complex, multi-step professional tasks within a command line interface. Opus 5.5 at default effort beats Opus 5 at max effort for about a fifth of the cost. It matches GPT-6 Astra at about 40% of the cost. Data as of September 22, 2026.

Safety and alignment: core to both the mission and business

For the mission

Safety and alignment research

Investing more in interpretability, red-teaming and pre-release testing

Misuse detection and disruption

Advancing detection and disruption of distillation and misuse of our models

For the business

Earn enterprise trust and adoption

Make Claude reliable for mission-critical customer work

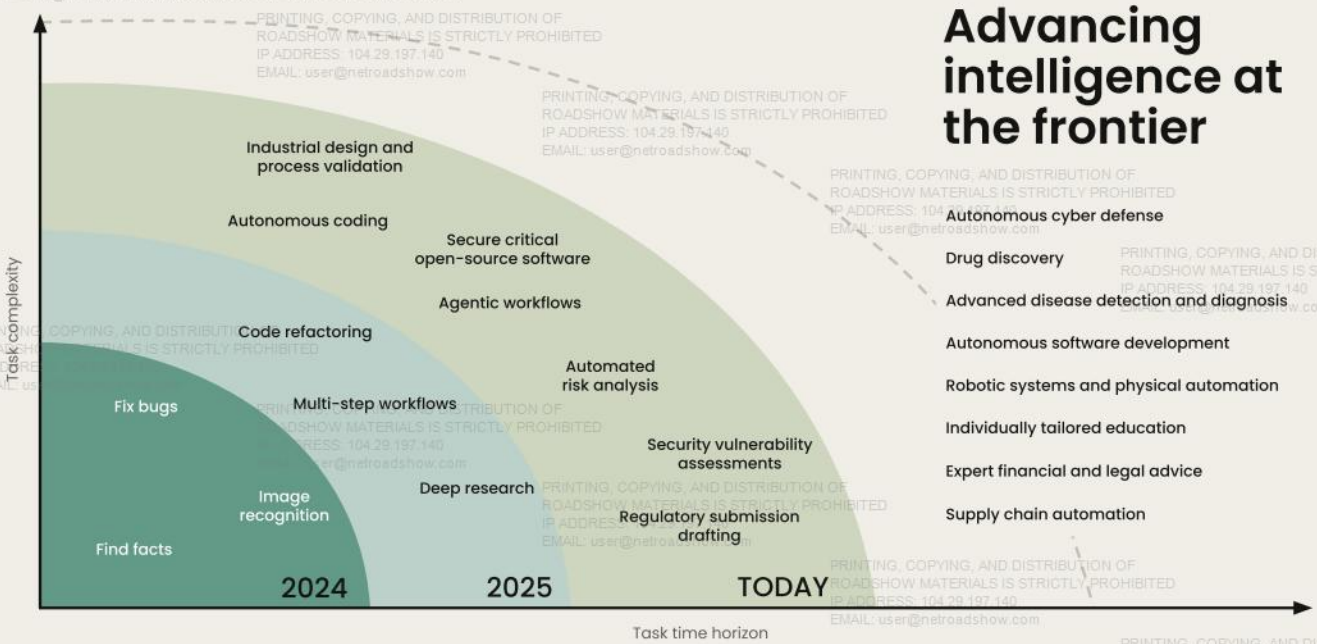

Preserve our IP and safety standards

Maintain our research advantage and model safeguards

Core advantages | Enterprise strategy

We win by delivering what matters to enterprises

Tokens

Measures raw input costs, not output value or quality

Does not capture infrastructure, security, and engineering effort

Benchmark scores

Limited efficacy in evaluating long-horizon, frontier models

Does not capture tradeoff between capabilities and effort level

Models

Capabilities in isolation from enterprise context and use cases

Requires system of input and system of action around it

Business outcomes

Measured on completing real-world, complex business outcomes

Frontier systems optimized for enterprise infrastructure, security, and ease of use

Useful intelligence

Focused on autonomously performing open-ended tasks over long time horizons

Frontier systems enable customers to balance performance, cost, and effort

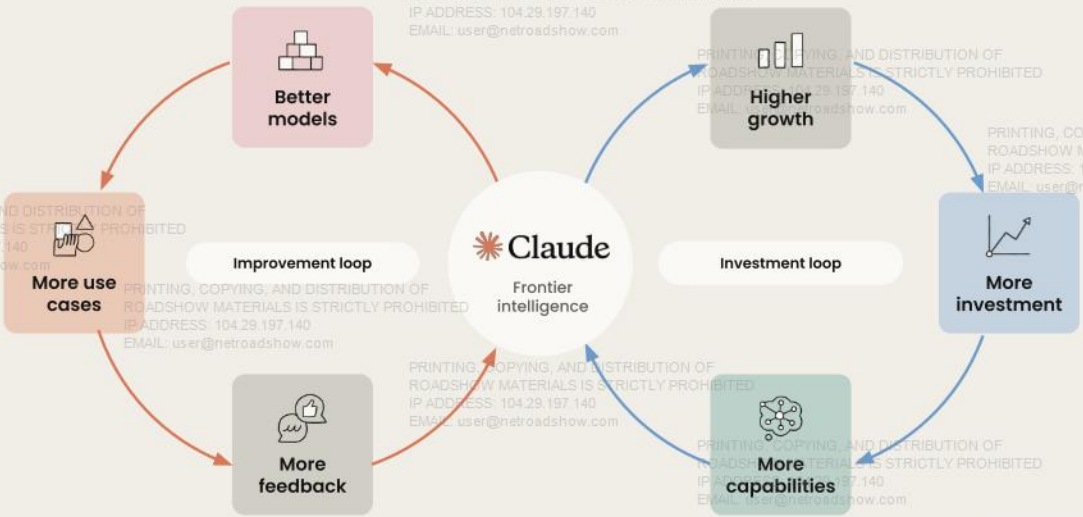

Virtual collaborators

Applications and agents working with enterprise context, safety, and security

Integrated with existing systems and processes, and designed for collaboration

Claude is accelerating our ability to close the loop

- Achieving greater intelligence leaps
- Speeds up building the next model generation
- Increasingly capable of aiding in advanced AI research
- Claude's intelligence is at the frontier

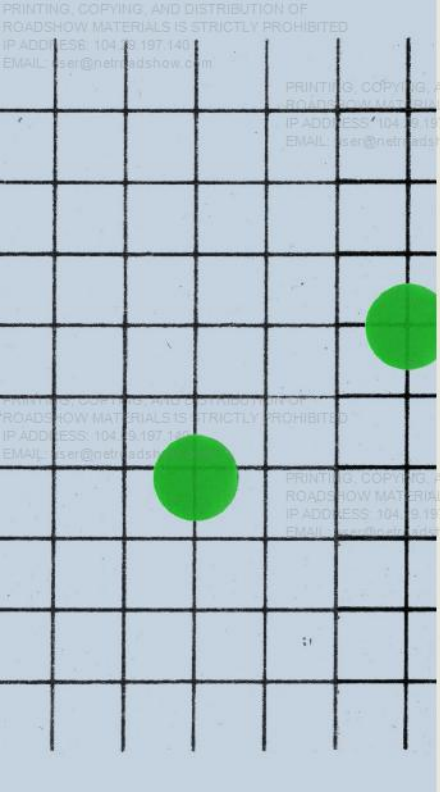

>90%

Contributions to our codebase written by Claude[2]

Increase in code contributed per engineer[1]

1. As of September 30, 2026. Each bar is the average, over the days in that quarter, of lines of code merged (including code authored by Claude) per active human engineer, shown as a multiple of the 2024 average. Per-PR line counts capped at the 99th percentile; "active contributor" means a distinct human author in the trailing twelve months. 2. In September 2026.

Enterprise adoption of Claude

Customers are seeing results across every pillar

More productive employees

mercado libre

ENGINEERING OUTPUT

100%+ more code merged year over year

23,000+ developers use Claude Code. Q2 deployments rose ~75% YoY as rollbacks fell.

salesforce

ENGINEERING OUTPUT

151% Increase in effective output per developer year over year

Claude Code is Salesforce's primary coding agent.

Faster processes

Bristol Myers Squibb

R&D SPEED

~5 min to answer a real-world evidence question, down from ~2 months

Claude works across the 30 to 40 medical records and claims databases BMS uses.

AIG

OPERATIONS SPEED

90%+ improvement in submission review time

AIG Assist enabled underwriters to quote 55% faster and submissions bound are up 40%.

Embedded intelligence

Walmart

REVENUE GROWTH

~35% higher average order value than non-Sparky orders

Anthropic partnered on Sparky, Walmart's AI shopping agent. Units sold rose 2x+ QoQ.

LEGORA

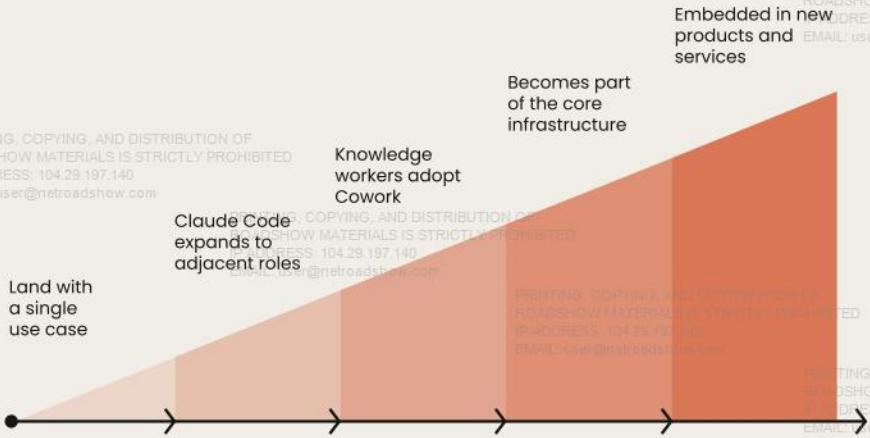

CUSTOMER REACH

1,500+ law firms and in-house legal teams served

Claude helps plan and delegate drafting, document review, and research inside Legora's agentic system.

Enterprise adoption of Claude

Customers start with one use case and quickly expand to make Claude indispensable

~900%

Net revenue retention[1]

1. NRR data as of September 30, 2026. Please see the appendix for how we calculate NRR.

Unprecedented financial model

Compute and operating efficiency drive significant operating leverage

Adjusted operating margin (%)[1]

[1] Adjusted operating margin is a non-GAAP metric. See appendix for how we calculate Adjusted Operating Margin and for a reconciliation to the nearest GAAP metric which is $1.3bn operating loss. [2] Change in adjusted operating margin calculated as the rounded percentage point delta between Q1'25 and Q3'26. GAAP operating margins were -35%, 8%, and -3% for Q1'26, Q2'26, and Q3'26, respectively. Note: Adjusted Operating Margin decreased from 19% in Q2'26 to 15% in Q3'26, primarily driven by $5.0 billion of compute under short-term commitments, which currently costs significantly more than comparable compute procured under our multi-year commitments.

Unprecedented financial model

Our strong business model and balance sheet support our capital commitments

Significant growth at scale	Robust margins	Capital efficient business model	Strong balance sheet
~$81B Oct Run-rate Revenue[1]	**85%+** Gross margin[2]	**$141B** Capital raised	**$216B** Pre-IPO total liquidity[4]
>12x YoY Q3 Revenue Growth	**43%** Compute margin[3]	**$132B** Cash and short-term investments	**$85B** Expected net IPO proceeds[5]

Note: All metrics as of September 30, 2026, unless otherwise noted. 1. Run-rate revenue definition can be found in the appendix. 2. Gross Margin calculated as (revenue - cost of revenue) / revenue. Reflects nine months ended September 30, 2026. 3. Compute margin is calculated as revenue less compute & infrastructure cost, as a % of revenue. For the 9 months ended September 30, 2026. 4. Includes $131.8bn of cash and short-term investments, $82bn strategic financing capacity, and $14.8bn of undrawn revolver capacity as of September 30, 2026. This strategic financing capacity is reduced by $10bn from Google LLC and $2.5bn from AMD as part of the concurrent private placement. 5. Estimated net proceeds from the sale of shares of our Class A common stock in this offering and shares of our Class N common stock in the concurrent private placement, based up on the assumed initial public offering price of $74.00 per share, which is the midpoint of the estimated offering price range on November 6, 2026.

Definitions

- Adjusted Non-compute cost: Adjusted Non-compute costs represent the sum of (i) Personnel costs, (ii) Sales, marketing, and partnership costs, and (iii) Other operating and administrative costs, less (iv) stock-based compensation, (v) Bartz settlement, and (vi) non-cash charitable contributions.
- Adjusted Operating Income (Loss): refers to operating income (loss) excluding (i) stock-based compensation expense, (ii) non-cash charitable contributions, and (iii) Bartz settlement.
- Adjusted Operating Margin: refers to Adjusted Operating Income (Loss) divided by revenue.
- Adjusted personnel and other operating expense: calculated as personnel expense (excluding stock-based compensation), plus other operating and administrative expense (excluding stock-based compensation), less non-cash charitable contributions.
- Compute efficiency: calculated as revenue divided by compute and infrastructure costs.
- Customer: refers to a prosumer or an organization that uses our models, platform, or applications.
- "Customers with $100,000 or more of revenue on a TTM basis," "customers with $1 million or more of revenue on a TTM basis," and "customers with $10 million or more of revenue on a TTM basis" each refer to customers contributing revenue equal to or greater than the applicable dollar amount during the trailing twelve-month ("TTM") period ending on the measurement date. For purposes of this metric, we define a customer as a distinct organization, identified by aggregating the accounts that we determine belong to the same organization based on internal records and available data. We do not separately define or internally track a category of "enterprise" customers, and our customers are not segmented or measured internally by reference to whether a given customer is an "enterprise." Because spending $100,000 or more on our products is generally characteristic of organizational rather than individual usage, we use the number of and revenue from customers with $100,000 or more of revenue on a TTM basis as our measure of enterprise adoption and engagement with Claude, including in references to "enterprise customers" and "enterprise adoption."

Definitions (cont'd)

- Net Revenue Retention: reflects customer expansion, contraction, and churn as of a measurement date. We calculate Net Revenue Retention by dividing the Qualified Customers' Current Period revenue by their Base Period revenue. A Qualified Customer is a customer with at least $1 of revenue during the Base Period, excluding subscribers to our Claude Pro, Max, and Ultra plans, whose fixed-price subscriptions do not reflect the expansion and contraction behavior this metric is intended to capture. The Base Period is the three months ending a year prior to the measurement date. The Current Period is the three months ending as of the measurement date.
- Run-Rate Revenue: operating metric that refers to the estimated annualized value of our revenue-generating activity as of a measurement date, calculated as the sum of (i) our consumption-based fees during the trailing 28-day period ended on the measurement date, multiplied by 13, and (ii) our aggregate monthly subscription fees as of the measurement date, multiplied by 12. For purposes of calculating Run-Rate Revenue, consumption-based fees and subscription-based fees are derived from customer usage and active subscriptions.

Knowledge work calculation methodology

Our estimate regarding global knowledge workers' wages, which we refer to as the annual economic value represented by global knowledge workers, is our own, derived from third-party data. Based on wage data for U.S. workers by occupation classification from the U.S. Bureau of Labor Statistics in 2025, we calculate the total salary for the subset of workers that we believe to represent knowledge workers. Based on International Labour Organization data for global labor income as a percentage of global GDP, and based on 2025 global GDP, we estimate a 2025 global wages figure. We calculate the ratio of total U.S. wages in 2025 to the 2025 global wages figure, and apply that ratio to the total U.S. knowledge workers' wages figure to arrive at an estimate of global knowledge workers' wages.

Relates to non-cash charges from our donation matching program, the value of which is linked to employee equity awards and recorded in other operating and administrative expenses. 2. Excluded from our calculation of Adj. Non-compute costs as it is not indicative of ongoing operations. 3. Adj. Non-compute cost represents the sum of (1) Personnel costs, (2) Sales, marketing, and partnership costs, and (3) Other operating and administrative costs, less stock-based compensation, non-cash charitable contributions, and Bartz settlement.

Additional Disclaimers

Australia

The information contained in this presentation is being provided in connection with the proposed initial public offering ("IPO") of shares of Class A common stock ("Shares") by Anthropic, PBC (the "Company"). The Australian retail offer is an offer of newly issued Shares by the Company ("Australian Retail Offer") made under the Australian prospectus lodged with the Australian Securities and Investments Commission on or about 11 November 2026 AEDT ("Australian Prospectus"). The information contained in this presentation does not form part of the Australian Prospectus, and anyone considering applying for Shares under the Australian Retail Offer should rely only on information in the Australian Prospectus and any supplementary or replacement Australian Prospectus. A copy of the Australian Prospectus is available on this website. Further information about the Company, the IPO, the Shares and the risks of investing in the Company is set out in the Australian Prospectus. Anyone considering applying for Shares under the Australian Retail Offer should read and consider the Australian Prospectus in full in deciding whether to acquire Shares under the Australian Retail Offer. Anyone who wants to acquire Shares under the Australian Retail Offer will need to complete the application form that accompanies the Australian Prospectus, in accordance with the process set out in the Australian Prospectus and any other instructions from their broker. Anthropic has applied to list its Class A common stock on the Nasdaq Global Select Market under the symbol "ANT". The Company will not be applying for listing on the Australian Securities Exchange.

Japan

A securities registration statement relating to the initial public offering of shares of Class A common stock ("Securities") in Japan has been filed with the Kanto Regional Finance Bureau in Japan; however, such registration statement has not yet become effective. Prior to the effectiveness of such registration statement, the Securities may not be acquired through, or sold in, the offering in Japan. Investors should carefully review the prospectus, and any amendment thereto (if any), to be prepared by the Company concerning the initial public offering of the Securities in Japan, which can be obtained from the selling agents in Japan prior to making any investment decision in connection with the initial public offering of the Securities in Japan.

United Kingdom

The only persons in the United Kingdom to whom this presentation is directed are those who are "qualified investors" as defined under paragraph 15 of Schedule 1 of The Public Offers and Admissions to Trading Regulations 2024, who are also persons (i) who fall within the definition of "investment professionals" in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Order"); or (ii) who fall within Article 49(2)(a) to (d) of the Order; or (iii) to whom it may otherwise lawfully be directed (all such persons being together referred to as "Relevant Persons"). This presentation may not be viewed, accessed, acted on or relied on by persons in the United Kingdom who are not Relevant Persons. Any investment or investment activity to which this presentation relates is available in the United Kingdom only to Relevant Persons and will be engaged in only with Relevant Persons.

This presentation is not directed at, and must not be viewed, accessed, acted on or relied on by, any persons resident and physically located in the United Kingdom who are not Relevant Persons ("UK Retail Investors"). UK Retail Investors wishing to participate in the offering should only do so through the public offer platform operated by RetailBook Limited and should visit app.retailbook.com/offers/anthropic-ipo.

Additional Disclaimers

European Economic Area

Advertisement –This presentation does not constitute a prospectus for purposes of Regulation (EU) 2017/1129, as amended (the "Prospectus Regulation"), and legal provisions in connection therewith. In connection with the proposed offering to the public to eligible retail investors in Denmark, Finland, France, Germany, Ireland, the Netherlands, Norway, Spain, and Sweden (the "Covered EEA Countries"), which is part of the offering described in this presentation (the "European Public Offering"), this presentation is an advertisement for purposes of the Prospectus Regulation and legal provisions in connection therewith.

The European Public Offering will only be made on the basis of the European Prospectus (as defined below). Eligible retail investors, which are individual persons or legal entities which do not qualify as qualified investors within the meaning of Article 2 point (e) of the Prospectus Regulation, in the Covered EEA Countries should not purchase or subscribe for any shares of Class A common stock referred to in this presentation except on the basis of information in, and subject to the terms of, the prospectus to be issued by Anthropic in connection with the European Public Offering (the "European Prospectus"), which may differ from the terms set out in this presentation. The European Prospectus is, following approval by the German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht – "BaFin"), available on the website of Anthropic at ipo.anthropic.com and upon request of any investor and free of charge, a copy of the European Prospectus in electronic version shall be delivered to the relevant investor. The approval of the European Prospectus by the BaFin should not be understood as an endorsement of the securities. Potential investors in the Covered EEA Countries where the European Public Offering will be made should read the European Prospectus (including any documents incorporated by reference therein and any supplements thereto, if any) before making an investment decision in order to fully understand the potential risks and rewards associated with the decision to invest in the securities. Investment in shares entails numerous risks, including a total loss of initial investment.

In member states of the European Economic Area other than the Covered EEA Countries, this presentation is only addressed to and directed at persons who are "qualified investors" within the meaning of Article 2 point (e) of the Prospectus Regulation. In addition, Anthropic may also offer any shares of Class A common stock in any member state of the European Economic Area in circumstances falling within the application of Article 1(4) of the Prospectus Regulation not requiring the publication of a prospectus.

Additional Disclaimers

European Economic Area - cont.
Publicidad – Esta presentación no constituye un folleto a los efectos del Reglamento (UE) 2017/1129, en su versión modificada (el "Reglamento de Folletos"), y las disposiciones legales relacionadas con el mismo. En relación con la oferta pública propuesta a inversores minoristas elegibles en Dinamarca, Finlandia, Francia, Alemania, Irlanda, Países Bajos, Noruega, España y Suecia (los "Países del EEE Cubiertos"), que forma parte de la oferta descrita en esta presentación (la "Oferta Pública Europea"), esta presentación constituye un anuncio publicitario a los efectos del Reglamento de Folletos y las disposiciones legales relacionadas con el mismo.

La Oferta Pública Europea se realizará únicamente sobre la base del Folleto Europeo (según se define a continuación). Los inversores minoristas elegibles, que son personas físicas o jurídicas que no tengan la consideración de inversores cualificados en el sentido del artículo 2, letra e), del Reglamento de Folletos, en los Países del EEE Cubiertos no deberán comprar ni suscribir ninguna acción ordinaria de Clase A a la que se hace referencia en esta presentación salvo sobre la base de la información contenida en, y de conformidad con los términos de, el folleto que publicará Anthropic en relación con la Oferta Pública Europea (el "Folleto Europeo"), que podrá diferir de los términos establecidos en esta presentación. El Folleto Europeo se encuentra, tras su aprobación por la Autoridad Federal de Supervisión Financiera de Alemania (Bundesanstalt für Finanzdienstleistungsaufsicht – "BaFin"), disponible en el sitio web de Anthropic en ipo.anthropic.com y, a solicitud de cualquier inversor y de forma gratuita, se entregará al inversor correspondiente una copia del Folleto Europeo en versión electrónica. La aprobación del Folleto Europeo por BaFin no debe interpretarse como un respaldo de los valores. Los inversores potenciales en los Países del EEE Cubiertos donde se realizará la Oferta Pública Europea deberán leer el Folleto Europeo (incluido cualquier documento incorporado por referencia al mismo y cualquier suplemento al mismo, en su caso) antes de tomar una decisión de inversión, con el fin de comprender plenamente los riesgos y beneficios potenciales asociados a la decisión de invertir en los valores. La inversión en acciones conlleva numerosos riesgos, incluido el de la pérdida total de la inversión inicial.

En los Estados miembros del Espacio Económico Europeo distintos de los Países del EEE Cubiertos, esta presentación se dirige exclusivamente a personas que sean "inversores cualificados" en el sentido del artículo 2, letra e), del Reglamento de Folletos. Además, Anthropic también podrá ofrecer acciones ordinarias de Clase A en cualquier Estado miembro del Espacio Económico Europeo en circunstancias incluidas en el ámbito de aplicación del artículo 1, apartado 4, del Reglamento de Folletos que no requieran la publicación de un folleto.
